ADDRESS REPLY
TO WRITER

February 22, 1934

Mr. Ray O. Wolf
Rock Port
Missouri

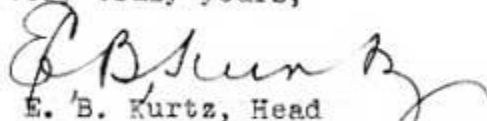

Dear Mr. Wolf:

Thanks for your card of February
15 advising us of reception of our February 14
broadcast.

The double images you report seeing
is a phenomenon known as ghosting and is not due
to distortion in your receiver. It means that you
are receiving our signals both by way of the
ground wave and also by way of the sky or reflected
wave. The sky wave arrives a little later due to the
longer route and so is displaced on the televisior..

I would be pleased if you would keep
on reporting, even if we do not acknowledge all reports.

Very truly yours,

E. B. Kurtz, Head
Electrical Engineering Department and
Director, Television Station W9XK.

P.S.

Did your friend at Shenandoan get our programs?

Dear Mr. Wolf:

In answer to your letter of November 14, we hope to have the television station on the air within a week or two. The periods which it will fill are from 7:30 to 7:45 on Monday and Wednesday evenings. The call letters for the station are W9XK.

We wish you success with your receiver.

Very truly yours,

Carl Menzer

IOWA CITY

October 24, 1934

Mr. Ray O. Wolf
Rock Port, Mo.

Dear Mr. Wolf:

You will be interested in learning that we have just opened our third season of educational sight and sound broadcasting.

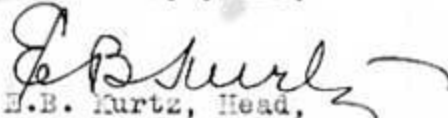

Our schedule is Tuesdays and Thursdays from 7:30 to 7:45 P.M.

W9XK, the Electrical Engineering Dep't. Television Transmitter, operates on 2050 kilocycles and uses the 46 hole 3 spiral scanner, running 900 RPM. WSUI, the University Sound Transmitter, operates on 880 kilocycles.

The Tuesday programs will include vocal and instrumental numbers in addition to the illustrated lessons on art. The Thursday programs will include dramatic numbers in addition to the illustrated lessons on personal shorthand.

We will be pleased if you will send us reports of your reception from time to time, as well as any comments or suggestions you may wish to make on the programs.

Very truly yours,

E.B. Kurtz, Head,
Electrical Engineering Dep't. and
Director of Television Station W9XK
