

From Joey Kent:

Just ran across some material in an old scrapbook I knew you'd want to add. Attached is copies of an original RCA Radiogram and envelope from the television exhibit at the 1939 World's Fair in New York. My great-grandmother cabled my grandparents with news that she had just seen television! Very colorful and cool, especially now that I am living in New Orleans. The radiogram was mailed from just up the street.

(See <http://www.earlytelevision.org/w5xa.html> for more from Joey Kent)
